

EC&MW, Inc.

Manufacturing over 300 standard models, custom aluminum and stainless steel gantry cranes! EC&MW is an innovative company consistently working on original ideas to prevail in the industry. An extensive background in the rigging business has encouraged the creative side that fuels this company. EM&CW is the original designer of the all-terrain and air caster gantries in 2000, removable leg and stainless steel gantries in 2005, plus others. We take pride in providing a top quality product that will supply you with years of dependable service. All manufacturing is done in-house allowing us to be responsive to our customer's needs.
