ANIMAL RESCUE

GANTRIES

Custom made for your needs!

SB MODEL

- Standard Gantry Crane Features:
- 2,000 lb. cap.
 - Adjustable leg widths or fixed
 - 4-position locking polyurethane casters

P MODEL

- Standard Gantry Crane Features:
- 1,000 lb. cap.
 - 2,000 lb. cap.
 - 4-position locking polyurethane casters

Our P and SB Models are the most portable models around. Each can be assembled and broken down easily by one person.

Using our optional, unique cart assembly makes these gantries even more portable. Cart assembly keeps all the components together making it easy to store while also eliminating trips back and forth unloading/loading gantry.

These models easily fit in the back of service trucks and minivans!

ALL-TERRAIN GANTRY

Standard Gantry Crane Features:

- Horizontal & bulls-eye bubble level
- 300 variable height combinations
- Height to 12' under beam (optional)
- Crank down jacks (optional)
- A-Frame style 6,000 lbs. cap. (call for specifications)
- Tilting sand pads (optional)
- *Above gantries CAN NOT be rolled while loaded.

REMOVEABLE LEG GANTRY

- Standard Gantry Crane Features:
- 2,000, 3,000 and 4,000 lb. cap.
 - 5 Position adjustable heights
 - Telescoping break down legs (extendable and removable)
 - 4-position locking polyurethane casters at 90 degrees
